Dear Mr. English,

Thanks for your letter of the 25 and the useful enclosures.

The current clippings were of stories not published here so they also have value. Thanks.

Delayed responding hoping to be able to write at greater length but between the daily work I must do ad the lingering limitations of the phelbitis it hasn't been possible.

If you ever seen anything else you think I can use I'll welcome it.

You are right about the powerful influences. They are the one to be hurt.

Glad to have the copy of the m.o.

Have a good holiday,
